

Key Innovative Technologies" (KIT) is an SBA Certified 8(a) Joint Venture (JV). Our experience and knowledge make us an excellent option for IT solutions and Health IT services.

## Capabilities

At KIT we view our 8(a) status as a force multiplier allowing our customers to accelerate the procurement cycle for emerging program requirements.

We bring proven experience supporting multiple Government customers on large-scale efforts with the flexibility and responsiveness of a small business and the contracting convenience of an 8(a), for:

### INFORMATION TECHNOLOGY SOLUTIONS

### HEALTH IT SERVICES

### PROGRAM AND PROJECT MANAGEMENT

### INNOVATIVE CYBERSECURITY

### WEB & MOBILE AUTOMATION TESTING

#### NAICS Codes

- 541511 Custom Computer Programming Services
- 541512 Computer Systems Design Services
- 541519 Other Computer Related Services
- 511210 Software Publishers
- 518210 Data Processing, Hosting, & Related Services
- 519190 All Other Information Services
- 561320 Temporary Help Services

## Differentiators

*Proven technical expertise at all levels of the organization, from the Managing Partner into our individual technical teams, backed by a Project Management Organization (PMO) using industry standards and best practices prescribed by the Project Management Institute (PMI).*

*Reachback to the resources of Small Business Associate (SBA)-approved Mentor company EMKS, a proven contractor delivering successes to multiple federal agencies.*

*Simple, streamlined ordering procedures with a small pool of select vendors and limited opportunities for protest.*

Sattva™ is a Software Test Automation Platform that enables Web & Mobile testing for software applications. The tool offers drag-drop interface to configure automated test scripts and requires zero coding. Sattva provides end-to-end testing and integrates with external third-party CI/CD tools as well as Test and Defect management tools. Sattva is extremely easy to customize to meet specific client needs, will reduce run times by more than half, can be scheduled to run any day or time, and automatically emails a dashboard summary of the results upon completion.
